ESTIMATED NATURAL GAS DEMAND

Required for a new gas service or a material increase in connected gas load.

DEMAND | 10/2026

A. SERVICE LOCATION AND CONTACT

Service address

Customer / business

Phone

B. GAS APPLIANCES AND MAXIMUM INPUT

Use the INPUT rating (BTU/hr) from the appliance label - not its heating output.

APPLIANCE	QTY	BTU/HR EACH	ROW TOTAL BTU/HR
Range / cooktop / oven			
Tank water heater			
Tankless (on-demand) water heater			
Central furnace / heating			
Room / space / floor heater			
Gas clothes dryer			
Fireplace / gas logs			
Standby generator			
Pool / spa heater			
Boiler / process equipment			
Other (describe in notes)			
Other (describe in notes)			

TOTAL CONNECTED LOAD (BTU/hr)

Multiply quantity x maximum input for each row; add the row totals. Explain any "Other" items below.

C. FUTURE LOAD AND REQUESTED PRESSURE

☐ Future appliances planned - YES ☐ NO

If yes, what / BTU/hr?

☐ Standard low pressure (about 4 oz) ☐ 2 psig ☐ Other (describe)

Other / notes

D. CERTIFICATION

I listed the known gas appliances and will notify CWSG before a significant increase in load.
