GAS INSTALLATION & PRESSURE TEST CERTIFICATION

Submit a passing test record before gas activation; the meter may be set before or after the test.

TEST | 10/2026

A. SERVICE LOCATION

Service address

Customer / account

B. GAS-FITTING CONTRACTOR / CERTIFYING INSTALLER

Company / installer

Gas-fitting credential / authorization

Phone

Email

C. REQUIRED CUSTOMER-PIPING PRESSURE TEST

Minimum 20 psig for 30 minutes, with no unexplained pressure loss.

Test date

Piping tested

Actual pressure (psig)

Duration (minutes)

Start reading (psig)

End reading (psig)

☐ PASS ☐ FAIL - corrected and retested

☐ Meter already installed at time of test ☐ Meter not yet installed

☐ CWSG meter / regulator and other sensitive equipment were protected and isolated from test pressure.

D. CONTRACTOR CERTIFICATION

I certify the work and test recorded above comply with applicable fuel-gas code and CWSG requirements.

I understand gas must not be introduced into customer piping until required test and approvals are complete.

Signature / printed name

Date

E. CWSG OFFICE USE ONLY - NOT AUTHORIZATION BY CONTRACTOR

☐ Passing test recorded ☐ AHJ approval received, if required
